ISSF WORLD CUP SHOTGUN LONATO DEL GARDA, ITA 3 – 13 JUL 2026

Shotgun Equipment

All Skeet athletes must have an ISSF seal with serial number on their Skeet marker tapes. Any shooting vests that do not have an ISSF seal on the Skeet marker tape must be submitted to Equipment Control for inspection and the affixing of a seal before the competition.

Equipment Control will be conducted according to ISSF Rules using approved, calibrated instruments. Pre-competition testing is not mandatory. However, athletes are responsible for competing with legal equipment and clothing. All athletes are urged to submit any doubtful equipment and clothing to Equipment Control or the Shotgun Jury for checking before the competition. All athletes are subject to being selected for random testing during the competition. Athletes found to be in violation of the rules for Shotguns or Skeet marker tapes will be disqualified.

Buttstock Height (for Skeet only)

The height of the buttstock (either adjustable or “Monte Carlo” type) measured from the highest point of the cheek rest to the lowest point of the butt plate toe must not exceed 170mm (17cm). Any butt plate toe vertical extension which is not an integral part of the buttstock and simply intended to increase its height, is not permitted.

Cartridge Control

During Qualification, athletes whose cartridges are to be tested are selected by a computer draw. Between 10% and 18% of the athletes participating in an event will be selected for cartridge testing. Two (2) plus four (4) cartridges will be selected from each athlete and placed in separate labeled envelopes. The two (2) cartridges must be tested first. If both cartridges weigh 24.50 g or less, no further action will be taken. If one (1) or both cartridges weigh more than 24.50g, then the four (4) cartridges in the second envelope must be tested. If the average of the six (6) cartridges weighs more than 24.50 g, then the athlete must be disqualified (DSQ).

During Final, all eight (8) finalists must be tested using the same procedure. The Finalists or their Coaches/Officials must bring, as early as possible, but not later than 30 minutes before the scheduled start of the Final (Reporting Time), all the cartridges that will be used during the Final and place them in separate Cartridge Control Boxes on the Finals field of play. The Equipment Control Jury will take the necessary samples from the boxes. The boxes must be left under the supervision of a Shotgun Jury Member. Once cartridges are placed in the box, only the Equipment Control Jury or the Finalist can remove cartridges from the box. If additional cartridges are brought to a Finalist during Finals, samples from those cartridges must also be selected for testing. All cartridge controls must be completed before the start of the Presentation of the Finalists. Any disqualified (DSQ) athlete will not be allowed to participate in the Final (There will be no elimination for 8th place; the first elimination will be for 7th place).

Colored Wads

Any ejecta (Wad), except for the shot or powder, must be transparent or translucent. The shot must not have any color added. No other element can be added that could be distinguished as a Hit Target.

Equipment Control

Equipment Control will be open to athletes according to the Competition Schedule.

7. Immigration and Customs Requirements

Entry Visa

Italy is a member of the European Union and Schengen Agreement.

EU Nationals can enter Italy with a valid passport or with a valid ID Card.

Countries that require an Entry Visa for Italy should apply to the Italian Embassy/Consulate in their country well in advance before departure.

Detailed information regarding Visa can be found on the website of the Italian Ministry of Foreign Affairs:

www.esteri.it or <https://vistoperitalia.esteri.it/home/en>

Those participating federations who need a specific Invitation Letter to apply for a Sport Visa, must contact FITAV – Federazione Italiana Tiro a Volo – **not later than 3 JUN 2026**.

E-mail: visa@fitav.it

Phone: +39-06-4523 5212 / 5234 / 5246

FITAV has no influence on the Embassies and will only be able to provide invitations for the period of the ISSF World Cup Lonato 2026 and eventual Pre-Event Training.

No Visa will be granted upon arrival at the airport.

Custom Formalities, Import of Firearms

A maximum of three (3) shotguns and 1.000 cartridges per Athlete are allowed to enter in Italy.

Please check the specifics at page 19, section “AMMUNITION”, relevant to travel by car or plane.

EUROPEAN UNION NATIONALS holding a ‘EUROPEAN FIREARM PASSPORT’ (EFP) can import firearms to Italy without any auxiliary permission.

For all the Extra EU Countries, or for EU Athletes not owning the EFP, it’s mandatory to apply for the GUN PERMIT ONLINE procedure handled by FITAV (see: Gun Permit 2.0 User Manua) as per the Italian Law and per the Italian Police security requirements.

The Athletes NOT HOLDING A ‘EUROPEAN FIREARM PASSPORT’ (EFP) must indeed accurately follow the instructions described in the “GUN PERMIT 2.0 USER MANUAL” attached to the Invitation, so as to be guided step by step in how to use the system and how to get the GUN PERMIT document correctly issued.

FITAV will send the relevant GUN PERMIT soon after receiving the online application form duly filled-in, TOGETHER WITH the single registration (that is PERSONAL FOR EACH ATHLETE) to be done on the dedicated GUN PERMIT ON-LINE SYSTEM: <https://gunpermit.fitav.it>. Registration of each user is required to enter.

FITAV EMAIL ADDRESS to which you can refer to ask for any support about this procedure is: gunpermit@fitav.it (Ms. Federica Iannucci)

IMPORTANT: All Athletes traveling BY CAR must go - once CROSSING THE BORDER - to the FIRST AVAILABLE POLICE STATION TO DECLARE THE ENTRY OF THE FIREARM(S) and show to the Authorities the documentation, including FITAV GUN PERMIT.

The FITAV GUN PERMIT or the EFP must be shown to the Police Authorities together with an invitation letter from the Club or the Organizing Committee, confirming the athlete’s participation in the event.

The same letter will also be sent to athletes traveling by car and presented, together with the documents above, to the Italian Police in case of a check during the trip.

3 – 13 JUL 2026**

All athletes traveling by plane will have to fill in an additional double copy declaration on arrival at the Italian Airport. (As complimentary the OC or FITAV staff members will do it on their behalf). This form, together with the FITAV GUN PERMIT, or the European Firearm Passport at departure from Italy, must be returned to the Police Officers.

The Security service for the delivery of firearms and ammunition in Italian Airports has changed. There is no longer an internal security service, but each airline makes use of an external individual security company that provides the service on-call.

In order not to delay the delivery of firearms and ammunition upon arrival, each participating federation is recommended to book the flights, by declaring the shotguns in the reservation well in advance, to allow the airline to organize the transshipment service and delivery to the Police office in charge for the control of the firearms.

The "Security Tax" is applied to departing firearms and the passenger is charged at discretion of the airline as only some carriers provide the service free of charge.

The Organizing Committee has NO influence on the airlines in this regard.

For facilitating the immediate firearm recognition, the gun cases CANNOT be protected or placed into another type of travel bag (canvas, plastic etc.).

Non-European Union citizens are also suggested to take with them a copy of their passport which will be handed to the Police station together with the other forms at arrival, in order to speed the procedure.

Please DO NOT send any passport copy to the Organizing Committee.

Police and Customs firearms formalities will take place upon arrival at the first airport on Italian National Territory and at the last one at departure.

The Organizing Committee will NOT be responsible with the Italian Police at the airport for any incorrect information provided by the NPC related to firearms and ammunition.

Any request to change the shotguns details after the deadline must be notified to FITAV until five (5) days prior to arrival. Changes after that date will not be accepted.

All the delegations will be assisted to dispatch the Police and Customs procedures and escorted to the bus. Travelers will meet the assistants near to the baggage collection upon arrival.

In case of failure, please contact the Organizing Committee:

Useful Information on the Carriage of Shotguns on International Flights

As a rule, before issuing any ticket the travel agency appointed to book the flights should make sure that both the ammunition and the firearms are accepted on board the aircraft till the final destination.

The approval should appear on the electronic ticket (on the PNR Passengers Name Record) or on a separate message sent to the travel agency by the Airline Company.

The rules governing the carriage of ammunition and firearms appertain to the carrier who owns the aircraft therefore in case of flights made in code-sharing, the approval must come from both companies even if on the ticket the abbreviation of only one Company appears (i.e.: AF – BA – EK – LH – UA, etc.)

Normally, the final decision to accept firearms and ammunition on board comes from the Captain but once you have the “OK” on your flight ticket, the Company is responsible for having your firearms sent to destination.

In case of indirect flights, it is advisable to consider a connection of at least two hours.

Upon landing at the first airport, report to the information counter and make sure that your firearms have arrived and will be taken on board of the connecting flight.

Still, in case of indirect flights, avoid booking them with two different Airline Companies as most of the times, the firearms will be discharged at the first airport and the owners will have to collect them and make a new check-in. That, provided the local Police and Customs Authority do not cause problems of licenses, will probably cost extra security and boarding tax and, sometimes, extra-baggage fees. If passengers are not informed, they risk arriving at the final destination without knowing that their firearms have not been loaded on the connecting flight and are laying in the previous airport.

In many countries even if passengers are in transit and the baggage is labelled till destination, the control of firearms is made at the first airport of arrival; in others, the control is made at the first airport of arrival in the Nation passenger are headed for.

This is why it is advisable to ask your travel agency for collecting as much information as possible before departure, then, keep the situation under control step by step.

All firearms and ammunition must be declared while making flight reservation and at check-in and follow the procedure reserved to these special articles. It is a big mistake to pack them into normal bags and dispatch them into normal baggage because in case of loss it will be very difficult to find the firearms and, finally, owners will be liable to heavy fines.

As for Italy, Police and Customs formalities for firearms and ammunition must be dispatched at the first airport of arrival on the Italian Territory. They will be taken by the Security guards to the Police station located inside the international area where each firearm holder will collect them and, if the airport of arrival is not the same of destination, it will be necessary to make a new police control and a new check-in in the domestic departure area.

To avoid such a big trouble, we suggest all the athletes direct to Lonato Del Garda to book their flights in order to land directly at one of the Northern airports listed in section 9 of this General Information even if not all of them are considered as “official airports” for the ISSF World Cup.

Weapon Temporary Importation Form

Concerning the participating federations that will travel to Italy BY PLANE carrying firearms: Please be informed that when arriving at ANY ITALIAN AIRPORT you’ll be asked from the Police Authorities to fill-in the “Weapon Temporary Importation Form” to pass the formalities at check-point.

In order to facilitate the Police operations at the “Arrivals” and allow you to go quicker through the whole procedure, the Organizing Committee suggests to fill it already to be able to present it promptly to the Border Police at the custom check-point.

Please be informed that the Organizing Committee can help the participating federations to get in advance the “Weapon Temporary Importation Form” relevant to those Italian Airports: MILAN MALPENSA (MXP), MILAN LINATE (LIN), BERGAMO ORIO AL SERIO (BGY).

In any case, please don't worry about this form. It is available at any Italian Airport, Police Check-point, once landed and when going through the custom clearance procedures. Police will ask there to fill it in.

The Organizing Committee suggests to be ready for it and save time in operations, is to bring the following, having this at disposal of the Officers:

- Own Passport in original
- One Front / Back Copy of the own Passport OR ID Card
- One Copy of own EUROPEAN FIREARM PASSPORT (EFP) OR FITAV GUN PERMIT

IMPORTANT: For participating federations arriving in Italy BY CAR, the "Weapon Temporary Importation Form" is obviously not required.

In any case, even if traveling by car, whenever carrying firearms you are always asked to NOTIFY TO THE LOCAL POLICE your arrival in Italy.

Thus please be informed that - immediately after crossing the Italian Border - it's mandatory to go to the FIRST USEFUL POLICE STATION to declare the entry of your firearms on the Italian soil, showing all the required documentation, including the EUROPEAN FIREARM PASSPORT or FITAV GUN PERMIT.
